## Professional Profile

I am a polite, punctual and critical thinking graduate of Computer Games Design at the University of Huddersfield, with technical ability in standard office and specialist software. I believe that I am a strong team player with excellent people skills and leadership experience. I have a strong understanding of the latest technologies regarding specialist software and computer hardware, such as 3ds Max and Substance painter. I am currently seeking opportunities within the games industry and I hope to learn new methods and technologies which allow for proficient and productive workflow.

## Skills Profile

- Proficiency in hard surface modelling and unwrapping assets with 3ds Max;
  - Low-Poly Modelling
  - High-Poly Modelling
  - Unwrapping both UVs and lightmaps
- Moderate understanding of PBR texturing pipelines in specialist software, such as Substance Painter and Photoshop;
  - Experience of working with industry-standard game engines, such as Unity, UE4, and with object rendering software, including Marmoset Tool Bag 2 and Nvidia Iray.
- Experience within project management utilising online services, including Trello.
- Ability to effectively problem solve and search for solutions utilizing systems such as Mantis BT and Jira

## Interests and Activities

I am passionate about computing and technology and over the past few years, I have invested a lot of time into researching and upgrading computer hardware to suit the needs of personal projects I have undertaken. I enjoy playing video games (both PC and console), board games and watching films with friends, as well as collecting figures, models and art books from my favourite films and video games.
